EXPERIENCE

Web Development Intern

June 2024 - July 2024

Trigonal Technology

Kathmandu, Nepal

- Built RESTful APIs and server-side logic using **Express.js**.
- Applied **Git** for version control and collaborative development.
- Developed internal tools like an **admin panel** with user management features.
- Worked with cross-functional teams to enhance backend performance and maintainability.

PROJECTS

Spring Boot Ecommerce Backend

Built a scalable backend for an e-commerce platform using **Spring Boot**, **Postgres**, and **REST APIs**. Integrated features like product management, order processing, and user authentication. Achieved smooth performance with secure endpoints and optimized database queries.

Django Blog Application

Developed a full-featured blog platform using **Django**, supporting post creation, editing, image uploads,comment on post and user authentication. Implemented clean admin interface and media handling; deployed for public use with positive user feedback. ([Try it here](#))

React Run Scorer App

Built a lightweight cricket scoring app using **React**, designed for quick, on-the-go use. Supports **two innings**, ball-by-ball tracking of **runs, wickets, and overs**, without requiring bowler or batsman details. Ideal for casual/local matches with a clean and minimal UI. ([Try it here](#))

EXTRA-CURRICULAR ACTIVITIES

- Passionate **cricket player**; runner-up in an **intra-college tournament**, demonstrating teamwork and competitive spirit.
